Acceptable Use

The [acceptable use policy](#) covers all computer and network use at Virginia Tech. Acceptable use is always ethical, reflects academic honesty, and uses only your fair share. It demonstrates respect for intellectual property, ownership of data, system security mechanisms, and individuals' rights to privacy and to freedom from intimidation and harassment.

VT Username Purpose

Your *VT Username* identifies a handful of electronic accounts held by most people at Virginia Tech. You must provide your username and password to access university e-mail, the Canvas learning management system, your grades, your payments, the library, and almost everything you do at Virginia Tech.

Set Up 2-Factor

The next step is to authenticate to the *Login Service* with your new username, [REDACTED] and passphrase.

You'll then **set up a cell phone** or other 2-factor authentication device that you will use for every subsequent login. You'll need this device at orientation and any time you need to access email or other university services.

Finally, you'll end up in *My Accounts* where you can set up **passphrase recovery options** and get **2-factor bypass codes**.

Log In

22. 下载并安装 Duo Mobile 应用 。在您手机设备的应用商店中搜索 **Duo Mobile**。

针对中国安卓用户

因为在中国 Google Play Store 被屏蔽，中国的安卓用户有两种选择：

1. 在您抵达美国后注册您的手机号并购买一台新设备，或者
2. 注册一台非安卓设备（例如 iPad 和笔记本电脑等。）

如果您选择注册手机并购买一台新设备，则您应当从 [MyVT](#) 打印出 **登陆旁路代码 (login bypass code)**，它可以帮助您迁移到新设备上。打印这些代码能帮助您登陆并注册新设备，而无需用到您的旧手机。您应当在抵达美国**前**打印出这些代码，并安全保存，确保不会在旅程中遗失。当您在**美国**购买并设置好您的新电话/平板电脑后，您可以使用其中一个旁路代码登陆到您的双重验证设置中，注册该设备。您可以在 [此处](#) 找到打印旁路代码的说明。

23. 使用您的 VT 用户名和密码登陆。

24. 进行到注册步骤时，点击**现在注册(Enroll Now)**按钮

25. 点击**开始设置(Start setup)**

Two-factor authentication enhances the security of your account by using a secondary device to verify your identity. This prevents anyone but you from accessing your account, even if they know your password.

This process will help you set up your account with this added layer of security.
